for the French Rocks ^{is} and as the necessity for the additional establishment had not been explained he was informed that the financial condition did not admit of additional recurring expenditure & requested to renew the application, if necessary after explaining the necessity. The Dy Commr has stated that French Rocks consists of 3 Dy with big open spaces intervening them & that the existing staff cannot cope with the work and recommends an additional establishment costing Rs 10 per annum instead of the establishment proposed by the Mt Commr.

b) The additional recurring expenditure involved in the proposal of the Mt Commr is Rs 204 per annum & is that of the Dy Commr Rs 120 per annum. The provision made in the current year's budget estimate was reduced by Rs 204/- as the necessity for the additional establishment had not been explained & the

expenditure was in excess of the income. So the proposal if sanctioned will have to take effect from 1913-4 unless the charge can be met by reappropriation of sanctioned grants.

ways. The additional conservancy establishment may, however, be sanctioned if the Ind Council should consider the work necessary and the administrative Department are convinced of the necessity thereof.

12/1/12) No say if funds can be met by cutting this year and other expenditure down in future years so that there may be no additional expenditure. With a finance in which debit exceeds credit by fully 50% it is impossible to consider any question of adding debit however desirable or necessary they may be.

Sir,

With reference to your letter No 9715/M12 26-11-37 22-11-37
dated 19th June 12 regarding the additional conservancy staff
for the French Rocks Municipality, I have the honor to submit
herewith the correspondence ending with French Roc's Sub-Taluk
Deputy Amildar's report No 68/971 dated 22nd August 1912 ex-
plaining the circumstances necessitating the entertainment of
additional conservancy establishment. It will be seen from
the above that French Rocks consists of three divisions viz
Hirode, Beerasettalli, and Cantonment with big open spaces
intervening them and that consequently the existing conser-
vancy staff cannot cope with the work. I am however of op-
inion that instead of 1 peon, 1 sweeper, and 1 drain cooly as
proposed by the Municipal Board, the entertainment of 1 sweeper
and 1 drain cooly on Rs 5/- each per mensem may be sanctioned
for the present.

I have the honor to be,

Sir,
